
SOLUTIONS 30 SIGNS A €210 MILLION CONTRACT WITH TIM (TELECOM ITALIA)

This contract will be operated by an alliance led by Solutions 30 who will provide 60% of the services.

TIM (Telecom Italia) has entrusted Solutions 30, with deploying its FTTH network in Piedmont and Aosta Valley. Worth €210 million over 5 years, this contract is part of the vast project to create a single fiber-optic network in Italy.

In September 2020, TIM had launched a series of regional calls for tenders to select the service providers that will deploy its future FTTH network. Solutions 30 was selected as the partner in Piedmont and Aosta Valley and has been awarded a €210 million contract effective today and lasting 5 years. In order to operate this contract in the most efficient way, Solutions 30 has created an alliance with Elecnor, one of the leading Spanish industrial groups in the infrastructure, renewable energy, and new technology sectors. Within the framework of this alliance, Solutions 30 will provide and invoice 60% of the services.

This contract opens up a new development phase for Solutions 30 in Italy.

“We would like to thank Telecom Italia for their trust and are very pleased to partner with them on such a key project in Italy-both in terms of its scope and strategic nature for the country,” states Ruggero Fortis, CEO of Solutions 30 Italy. *“Solutions 30’s expertise in deploying fiber optics, gained on the French and Spanish markets, bolstered our candidacy and demonstrated our ability to serve our customers efficiently. At present, we are ready to embark on the implementation phase.”*
